OBJECTIVE

Computer Science student seeking an internship opportunity to apply technical skills gained from coursework and hands-on experience as a Systems Administrator. Eager to contribute to a dynamic team and continue growing in the field of IT and software development.

EXPERIENCE

Research Computing Facilitator

Tennessee Technological University | Cookeville, TN

Apr 2025-Present

- Assist researchers at Tennessee Technological University with using the on-campus HPC cluster.
- Review and update documentation regarding the on-campus cluster.
- Work very closely with a particular researcher to improve an existing Python program by adding CLI support and teaching him a new workflow using it. This led to a massive speedup in his productivity.
- Guide a high school summer program through a Build-an-HPC workshop, detailing every part of what goes into building and maintaining a High-Performance-Computing System.

Junior Systems Administrator

Conceptual Systems Corp. | Lebanon, TN

May 2023-Present

- Deployed and installed Windows on machines at customer locations.
- Configured and installed networking equipment, including switches, routers, and access points.
- Installed and configured security camera systems complete with Network Video Recorders and Video Management Systems.
- Developed management policies for the Remote Monitoring and Management program on deployed machines.
- Assisted in fiber installation, including trenching, laying conduit, and terminating cable ends.
- Created documentation for network configurations and installation procedures.

EDUCATION

Computer Science

Tennessee Technological University

Expected: May 2027

- GPA: 3.89
- Course credits earned in: C++, Python, OOP, Devops/UNIX, Data Structures, Algorithms, Introduction to Networking and Systems, Web Development.

ORGANIZATIONS

- Spirit of Green Hill Marching Band, Clarinet Section Leader, Mt. Juliet, TN,
 - Aug 2021-May 2023
- Golden Eagle Marching Band, Student Member, Cookeville, TN
 - Aug 2023-May 2024
